MSP DELIVERY PARTNER

Capture More AI Revenue Without Building a New Team

Scale Delivery | Improve Project Economics | Launch Faster

Nearshore delivery capacity for MSPs looking to expand technical capabilities, accelerate execution, and pursue more client opportunities without adding permanent headcount.

Your Client Just Approved an AI Project. Can Your Team Start Next Week?

AI, automation, and cloud transformation create new revenue opportunities. Limited capacity, specialized skills, and lengthy recruiting cycles can delay execution.

We help MSPs close that delivery gap.

Specialized Delivery Capabilities

Microsoft Copilot
Implementation and deployment support.

AI Agents
Agent development and integration.

Workflow & Process Automation
Business process optimization and automation.

Software Development
Application development and engineering capacity.

Cloud Modernization
Cloud engineering, migration, and optimization.

Specialized talent, integrated into your existing delivery organization.

Why MSPs Partner With Us

01 Increase Delivery Capacity
Add specialized nearshore professionals without lengthy hiring cycles or fixed headcount commitments.

02 Improve Project Profitability
Competitive nearshore talent helps improve project economics while maintaining technical quality and delivery standards.

03 Capture More AI Revenue
Pursue AI and technology initiatives without building every capability internally.

From Delivery Constraints to Revenue Opportunities

Without a Flexible Delivery Partner	With Our Nearshore Model
Delayed project starts	→ Faster project launches
Limited technical capacity	→ Scalable delivery resources
Expensive hiring cycles	→ Flexible resource engagement
Backlogged client requests	→ Increased delivery throughput
Missed revenue opportunities	→ More projects your team can pursue

Turn Capacity Constraints Into Revenue Growth

From Copilot deployments and AI agents to automation and software engineering, access the specialized talent to execute faster and scale confidently.

Scale Faster. Deliver Better. Grow Profitably.

WHY OUR MODEL WORKS

Built Around Your Projects. Not Our Bench.

Our recruiting DNA and nearshore model give MSPs access to specialized LATAM talent, commercial flexibility, and resources that integrate directly into existing operations for real-time collaboration with your teams and clients.

Four Reasons to Work With Us

01 Speed to Talent

Profiles in less than 72 hours. Specialized recruiting and an established LATAM network identify qualified professionals aligned with your requirements.

02 Purpose-Built Recruiting

No bench. Only the right talent. Every search is tailored to your technical needs, project objectives, and team dynamics.

03 Commercial Flexibility

Recruiting DNA creates engagement options. Access a broader talent market and structure nearshore engagements around your delivery and business objectives.

04 Visibility and Retention

PMO support and long-term stability. Project coordination, governance, and employee engagement help improve visibility and reduce delivery disruption.

OUR DELIVERY MODEL AT A GLANCE

<72 hours	<4%	100%	PMO
Initial candidate profiles	Annual talent attrition	Customized sourcing to your requirements	Project governance support available

XCHANGE EXCLUSIVE

Complimentary MSP Delivery Capacity Assessment

Have an upcoming client project but aren't sure how to resource it? Bring a project. Leave with a recommended delivery approach.

Bring us one of the following

- ✓ An active client project
- ✓ A technical delivery or staffing challenge
- ✓ An AI or automation initiative

We'll help you evaluate

- ✓ Recommended delivery approach
- ✓ Technical skills and resource requirements
- ✓ Project timeline considerations
- ✓ Nearshore engagement options

No obligation. No commitment required.

Say Yes to More Opportunities.

Add capacity when you need it. Deliver with confidence. Capture the opportunity without building a new team.
